

# Premium Cotton Picker Grease

CITADEL Cotton Picker Grease is specifically designed to ensure the smooth and efficient operation of cotton pickers, reducing downtime and increasing productivity. Its high-performance design provides exceptional protection against corrosion and extreme temperatures, making it ideal for the demanding conditions of cotton harvesting. CITADEL Cotton Picker grease is formulated with state-of-the-art additives to resist rust and wear on moving metal surfaces and premium base oils that offer unsurpassed film strength no matter the conditions.

## FEATURES

CORROSION  
PROTECTION

## APPLICATIONS:

CITADEL Cotton Picker Grease is a high performance, lithium-based grease specifically designed for extreme temperatures and high-speed spindles and heads found on cotton pickers.

## FEATURES & BENEFITS:

- Consistent film strength in extreme temperatures
- Prevents dirt, water, and other contaminants from entering bearings and other lubricated parts
- Excellent protection against rust and corrosion
- Anti-wear additives resist wear on moving metal surfaces

## RECOMMENDED PERFORMANCE SPECIFICATIONS:

CITADEL Premium Cotton Picker Grease is recommended in cotton picking applications

- Meets or exceeds JDN-360/380 requirements

CITADEL Premium Cotton Picker Grease		Typical Characteristics
NLGI	Test Method ASTM -D	00
Penetration, mm/10		
Worked 60 strokes	217	407
Viscosity	445	
@40°C (104°F)		21.1
@100°C (212°F)		3.6
Color	Visual	Green
Copper Corrosion	4048	1B
Oxidation Stability, lb loss/100hrs	942	4
Rust Prevention	1743	Pass
Wear Resistance, Four-Ball Scar (MM)	2266	0.5

*Minor variations in test data are to be expected in normal manufacturing*
