

## Safety Data Sheet

### SECTION 1: IDENTIFICATION

#### 1.1 Product Identifier

**Product Name:** CITADEL Heavy Duty 5% Moly #2

**Product Grades/Codes:** CITADEL Heavy Duty 5% Moly #2 – 1823500631 (Drum), 1823500643 (Keg), 1823500651 (Pail), 1823500698 (4x10 Pack)

#### 1.2 Intended Use of the Product

See Technical Data Sheet.

#### 1.3 Company Identification

North American Lubricants Company  
7337 E. Doubletree Ranch Road, Suite 180  
Scottsdale, AZ 85258  
(800)430-6252  
[www.nalube.com](http://www.nalube.com)

#### 1.4 Emergency Telephone Number

**Emergency Number** : CHEMTREC: (800)424-9300 or (703)527-3887

### SECTION 2: HAZARDS IDENTIFICATION

#### 2.1 OSHA/HCS Status

This material is considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200)

#### 2.2 Classification of the Substance or Mixture:

SKIN SENSITIZATION – Category 1

#### 2.3 GHS Label Elements

**Symbol:**

**Signal Word:** Warning

**Hazard Statements:** H317 – May cause an allergic skin reaction

#### 2.4 Precautionary Statements

**Prevention:** P280 – Wear protective gloves.

P261 – Avoid breathing dust.

P272 (OSHA) - Contaminated work clothing must not be allowed out of the workplace.

**Response:** P302 + P352 + P363 – IF ON SKIN: Wash with plenty of soap and water Wash contaminated clothing before reuse.

P333 + P313 – If skin irritation or rash occurs; get medical attention.

## Safety Data Sheet

**Storage:** Not applicable

**Disposal:** P501 – Dispose of contents and container in accordance with all local, regional, national and international regulations.

**Hazards Not Otherwise Classified:** None known

### SECTION 3: COMPOSITION/INFORMATION ON INGREDIENTS

#### 3.1 Substance/Mixture: Mixture

| Ingredient Name                     | %                   | CAS Number  |
|-------------------------------------|---------------------|-------------|
| Antimony tris dialkydithiocarbamate | $\geq 1 - \leq 3$   | Proprietary |
| Benzenamine, N-phenyl-, styrenated  | $\geq 0.3 - \leq 1$ | 68442-68-2  |
| Alkylmercaptothiadiazoole           | $\geq 0.3 - \leq 1$ | Proprietary |

Any concentration shown as a range is to protect confidentiality or is due to batch variation.

**There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.**

**Occupational exposure limits, if available, are listed in Section 8.**

### SECTION 4: FIRST AID MEASURES

#### 4.1 Description of First Aid Measures

**Eye Contact:** Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Continue to rinse for at least 20 minutes. Get medical attention if irritation occurs.

**Inhalation:** Remove victim to fresh air and keep at rest in a position comfortable for breathing. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel. It may be dangerous to the person providing mouth-to-mouth resuscitation. Get medical attention if adverse health effects persist or are severe. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband.

**Skin Contact:** Wash with plenty of soap and water. Wash contaminated clothing thoroughly with water before removing it, or wear gloves. Continue to rinse for at least 20 minutes. Get medical attention. In the event of any complaints or symptoms, avoid further exposure. Wash clothing before reuse. Clean shoes thoroughly before reuse.

**Ingestion:** Wash out mouth with water. Remove dentures if any. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Stop if the exposed person feels sick as vomiting may be dangerous. Do not induce vomiting unless directed to do so by medical personnel. If vomiting occurs, the head should be kept low so that vomit does not enter the lungs. Get medical attention if adverse health effects persist or are severe. Never give anything by mouth to an unconscious person. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband.

#### 4.2 Potential Acute Health Effects

**Eye Contact:** No known significant effects or critical hazards.

**Inhalation:** No known significant effects or critical hazards.

**Skin Contact:** May cause an allergic skin reaction.

**Ingestion:** No known significant effects or critical hazards.

## Safety Data Sheet

### 4.3 Over-Exposure Signs/Symptoms

**Eye Contact:** No known significant effects or critical hazards.

**Inhalation:** No known significant effects or critical hazards.

**Skin Contact:** Adverse symptoms may include the following: irritation and/or redness.

**Ingestion:** No known significant effects or critical hazards.

### 4.4 Indication of Immediate Medical Attention and Special treatment Needed, if Necessary

**Notes to Physician:** Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled.

**Special Treatments:** No specific treatment.

**Protection of First Responders:** No action shall be taken involving any personal risk or without suitable training. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Wash contaminated clothing thoroughly with water before removing it, or wear gloves.

See toxicological information (Section 11)

## SECTION 5: FIREFIGHTING MEASURES

### 5.1 Extinguishing Media

**Suitable Extinguishing Media:** Use an extinguishing agent suitable for the surrounding fire.

**Unsuitable Extinguishing Media:** None known.

### 5.2 Special Hazards Arising from the Substance or Mixture

No specific fire or explosion hazard.

### 5.3 Hazardous Thermal Decomposition Products

Decomposition products may include the following materials: sulfur oxides, metal oxide/oxides.

### 5.4 Special Protective Actions for Firefighters

Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.

### 5.5 Advice for Firefighters

Firefighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

## SECTION 6: ACCIDENTAL RELEASE MEASURES

### 6.1 Personal Precautions, Protective Equipment and Emergency Procedures

**For Non-Emergency Personnel:** No action shall be taken involving any personal risk or without suitable training. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Put on appropriate personal protective equipment.

# Safety Data Sheet

**For Emergency Responders:** If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".

## 6.2 Environmental Precautions

Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).

## 6.3 Methods and Material for Containment and Cleaning

**Spill:** Move containers from spill area. Approach release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Avoid dust generation. Do not dry sweep. Vacuum dust with equipment fitted with a HEPA filter and place in a closed, labeled waste container. Dispose of via a licensed waste disposal contractor. Note: see Section 1 for emergency contact information and Section 13 for waste disposal.

## SECTION 7: HANDLING AND STORAGE

### 7.1 Precautions for Safe Handling

**Protective measures:** Put on appropriate personal protective equipment (see Section 8). Persons with a history of skin sensitization problems should not be employed in any process in which this product is used. Do not get in eyes or on skin or clothing. Do not ingest. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Empty containers retain product residue and can be hazardous. Do not reuse container.

**Advice on General Occupation Hygiene:** Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. See also Section 8 for additional information on hygiene measures.

### 7.2 Conditions for Safe Storage, Including Any Incompatibilities

Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use.

## SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION

### 8.1 Control Parameters

#### Occupational Exposure Limits:

| Ingredient Name                     | Exposure Limits |
|-------------------------------------|-----------------|
| Antimony tris dialkydithiocarbamate | None            |
| Benzenamine, N-phenyl-, styrenated  | None            |
| Alkylmercaptothiadiazole            | None            |

**Appropriate Engineering Controls:** Good general ventilation should be sufficient to control worker exposure to airborne contaminants.

**Environmental Exposure Controls:** Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation.

## Safety Data Sheet

### 8.2 Individual Protection Measures

**Hygiene Measures:** Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.

**Eye/Face Protection:** Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: safety glasses with side-shields.

### 8.3 Skin Protection

**Hand Protection:** Chemical resistant, impervious gloves complying with an approved standard should be worn at all times when at all times when handling chemical products if a risk assessment indicates this is necessary. Considering the parameters specified by the glove manufacturer, check during use that the gloves are still retaining their protective properties. It should be noted that the time to breakthrough for any glove material may be different for different glove manufacturers. In the case of mixtures, consisting of several substances, the protection time of the gloves cannot be accurately estimated.

**Body Protection:** Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.

**Other Skin Protection:** Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.

**Respiratory Protection:** Based on the hazard and potential for exposure, select a respirator that meets the appropriate standard or certification. Respirators must be used according to a respiratory protection program to ensure proper fitting, training, and other important aspects of use.

## SECTION 9: PHYSICAL AND CHEMICAL PROPERTIES

### 9.1 Appearance

|  |   |
|--|---|
| Physical State                               | : Solid (Semi-Solid Gel)                    |
| Color  | : Black                                     |
| Odor   | : Mild Petroleum                            |
| Odor Threshold                               | : Not Available                             |
| pH   | : Not Available                             |
| Melting Point                                | : Not Available                             |
| Boiling Point                                | : Not Available                             |
| Flash Point                                  | : Not Available                             |
| Evaporation Rate                             | : Not Available                             |
| Flammability (solid, gas)                    | : Not Available                             |
| Upper/Lower Flammability or Explosive limits |   |
| Lower Explosive Limit                        | : Not Available                             |
| Upper Explosive Limit                        | : Not Available                             |
| Vapor Pressure                               | : < 0.13 kPa (< 1 mm Hg) [room temperature] |
| Vapor Density                                | : Not Available                             |
| Relative Density                             | : Not Available                             |
| Solubility                                   | : Not Available                             |
| Partition Coefficient: N-Octanol/Water       | : Not Available                             |
| Auto-Ignition Temperature                    | : Not Available                             |
| Decomposition Temperature                    | : Not Available                             |
| Viscosity                                    | : Not Available                             |
| Flow Time (ISO 2431)                         | : Not Available                             |

## Safety Data Sheet

### SECTION 10: STABILITY AND REACTIVITY

#### 10.1 Reactivity

No specific test data related to reactivity available for this product or its ingredients.

#### 10.2 Chemical Stability

The product is stable.

#### 10.3 Possibility of Hazardous Reactions

Under normal conditions of storage and use, hazardous reactions will not occur.

#### 10.4 Conditions to Avoid

No specific data.

#### 10.5 Incompatible Materials

Reactive or incompatible with the following materials: oxidizing materials.

#### 10.6 Hazardous Decomposition Products

Under normal conditions of storage and use, hazardous decomposition products should not be produced.

### SECTION 11: TOXICOLOGICAL INFORMATION

#### 11.1 Acute Toxicity

| Product/Ingredient Name            | Result      | Species | Dose         | Exposure |
|------------------------------------|-------------|---------|--------------|----------|
| Benzenamine, N-phenyl-, styrenated | LD50 Dermal | Rabbit  | >10000 mg/kg | -        |

#### Information on the Likely Routes of Exposure:

Dermal contact. Eye contact. Ingestion.

#### 11.2 Potential Acute Health Effects

**Eye Contact:** No known significant effects or critical hazards.

**Inhalation:** No known significant effects or critical hazards.

**Skin Contact:** May cause an allergic skin reaction.

**Ingestion:** No known significant effects or critical hazards.

#### 11.3 Symptoms Related to the Physical, Chemical and Toxicological Characteristics

**Eye Contact:** No known significant effects or critical hazards.

**Inhalation:** No known significant effects or critical hazards.

**Skin Contact:** Adverse symptoms may include the following: irritation and/or redness.

**Ingestion:** No known significant effects or critical hazards.

#### Short Term Exposure:

**Potential Immediate Effects:** No known significant effects or critical hazards.

**Potential Delayed Effects:** No known significant effects or critical hazards.

## Safety Data Sheet

**Long Term Exposure:**

**Potential Immediate Effects:** No known significant effects or critical hazards.

**Potential Delayed Effects:** No known significant effects or critical hazards.

**Potential Chronic Health Effects:**

**General:** Once sensitized, a severe allergic reaction may occur when subsequently exposed to very low levels.

**Carcinogenicity:** No known significant effects or critical hazards.

**Mutagenicity:** No known significant effects or critical hazards.

**Teratogenicity:** No known significant effects or critical hazards.

**Developmental Effects:** No known significant effects or critical hazards.

**Fertility Effects:** No known significant effects or critical hazards.

### 11.4 Numerical Measures of Toxicity

**Acute Toxicity Estimates**

There is no data available.

## SECTION 12: ECOLOGICAL INFORMATION

### 12.1 Toxicity

There is no data available.

### 12.2 Persistence and Degradability

There is no data available.

### 12.3 Bioaccumulative Potential

There is no data available.

### 12.4 Soil/Water Partition Coefficient (Koc)

There is no data available.

### 12.5 Other Adverse Effects

No known significant effects or critical hazards

## SECTION 13: DISPOSAL CONSIDERATIONS

### 13.1 Waste treatment methods

The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

# Safety Data Sheet

## SECTION 14: TRANSPORT INFORMATION

### 14.1 Regulations

|                            | DOT Classification | IMDG          | IATA          |
|----------------------------|--------------------|---------------|---------------|
| UN Number                  | Not Regulated      | Not Regulated | Not Regulated |
| UN Proper Shipping Name    | -                  | -             | -             |
| Transport Hazard Class(es) | -                  | -             | -             |
| Packing Group              | -                  | -             | -             |
| Environmental Hazards      | No.                | No.           | No.           |

**AERG:** Not Applicable

### 14.2 Special Precautions for User

Transport within user's premises: always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage.

## SECTION 15: REGULATORY INFORMATION

### 15.1 US Federal Regulations:

|  |   |
|--|---|
| United States Inventory (TSCA 8b):                                   | All components are listed or exempted                                       |
| Clean Water Act (CWA) 307:   | Phosphorodithioic acid, mixed O, O-bis(iso-Bu and pentyl esters, zinc salts |
| Clean Water Act (CWA) 311:   | Hydrogen sulphide   |
| Clean Air Act Section 112:<br>(b) Hazardous Air<br>Pollutants (HAPS) | Listed  |
| Clean Air Act Section 602:<br>Class I Substances                     | Not Listed  |
| Clean Air Act Section 602:<br>Class II Substances                    | Not Listed  |
| DEA List I Chemicals:<br>(Precursor Chemicals)                       | Not Listed  |
| DEA List II Chemicals:<br>(Essential Chemicals)                      | Not Listed  |
