# **(b)** NORTH AMERICAN LUBRICANTS

### **Safety Data Sheet**

SDS# 9026, Version 1.0 Effective Date 5/18/2023 According to OSHA Hazard Communication Standard, 29 CFR 1910.1200

**PURAMAX Premium Drip Oil** 

#### **SECTION 1: IDENTIFICATION**

#### **1.1.** Product Identifier

Product Form: Mixture Product Name: PURAMAX Premium Drip Oil Product Grades/Codes: PURAMAX Premium Drip Oil – 2111351010 (Bulk)

Synonyms: Pump Oil/Drip Oil

#### 1.2. Intended Use of the Product

Drip Oil

#### 1.3. Company Identification

North American Lubricants Company 7337 E. Doubletree Ranch Road, Suite 180 Scottsdale, AZ 85258 (800)430-6252 www.nalube.com

#### 1.4. Emergency Telephone Number

Emergency Number : CHEMTREC: (800)424-9300 or (703)527-3887

#### SECTION 2: HAZARDS IDENTIFICATION

### 2.1. Classification of the Substance or Mixture

#### Classification (GHS-US)

Asp. Tox. 1 H304

Full text of H-phrases: see section 16

#### 2.2. Label Elements

GHS-US Labeling Hazard Pictograms (GHS-US/CA)

Signal Word (GHS-US/CA)	:
Hazard Statements (GHS-US/CA)	:
Precautionary Statements (GHS-US/CA)	:

Danger H304 – May be fatal if swallowed and enters airways. P301+P310 – IF SWALLOWED: Immediately call a POSISON CENTER or doctor P331 – Do NOT induce vomiting. P405 – Store locked up. P501 – Dispose of contents/container in accordance with local, regional, national, , and international regulations.

#### 2.3. Other Hazards

Exposure may aggravate pre-existing eye, skin, or respiratory conditions.

#### 2.4. Unknown Acute Toxicity (GHS-US)

None of the mixture consists of ingredient(s) of unknown acute toxicity.

# **( NORTH AMERICAN LUBRICANTS**

#### SECTION 3: COMPOSITION/INFORMATION ON INGREDIENTS

3.1. Substances			
Name	Product Identifier	% (w/w)	Classification (GHS-US)
Lubricating Oil, petroleum, hydrotreated spent	(CAS No) 64742-58-1	80-100	Asp. Tox. 1, H304

#### 3.2. Mixture

Safety Data Sheet

Not applicable

\*The specific chemical identity and/or exact percentage of composition have been withheld as a trade secret within the meaning of the OSHA Hazard Communication Standard [29 CFR 1910.1200].

\*More than one of the ranges of concentration prescribed by Controlled Products Regulations has been used where necessary, due to varying composition.

Full text of H-phrases: see section 16

#### **SECTION 4: FIRST AID MEASURES**

#### 4.1. Description of First Aid Measures

**General:** Never give anything by mouth to an unconscious person. If you feel unwell, seek medical advice (show the label if possible). **Inhalation:** Remove to fresh air and keep at rest in a position comfortable for breathing. Obtain medical attention if breathing difficulty persists.

**Skin Contact:** Remove contaminated clothing. Drench affected area with water or soap and water for at least 15 minutes. Wash contaminated clothing before reuse. Obtain medical attention if irritation develops or persists.

**Eye Contact:** Rinse cautiously with water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Obtain medical attention.

Ingestion: Do NOT induce vomiting. Rinse mouth. Call a POISON CENTER or doctor/physician if you feel unwell.

#### 4.2. Most Important Symptoms and Effects Both Acute and Delayed

General: May be fatal if swallowed and enters airways.

Inhalation: Overexposure may be irritating to the respiratory system.

**Skin Contact:** Repeated or prolonged skin contact may cause irritation.

Eye Contact: Direct contact with the eyes is likely irritating.

**Ingestion:** Ingestion is likely to be harmful or have adverse effects. Aspiration into the lungs can occur during ingestion or vomiting and may cause lung injury.

Chronic Symptoms: No known significant effects or critical hazards.

#### 4.3. Indication of Any Immediate Medical Attention and Special Treatment Needed

If you feel unwell, seek medical advice (show the label where possible).

#### **SECTION 5: FIRE-FIGHTING MEASURES**

#### 5.1. Extinguishing Media

Suitable Extinguishing Media: Use extinguishing media appropriate for surrounding fire. Dry chemical, foam, carbon dioxide. Unsuitable Extinguishing Media: Do not use water.

#### 5.2. Special Hazards Arising From the Substance or Mixture

Fire Hazard: Not flammable but will support combustion.

**Explosion Hazard:** Product is not explosive.

Reactivity: Hazardous reactions will not occur under normal conditions.

#### 5.3. Advice for Firefighters

**Precautionary Measures Fire:** Exercise caution when fighting any chemical fire. Under fire conditions, hazardous fumes will be present.

Firefighting Instructions: Use water spray or fog for cooling exposed containers.

# line the second second

#### **PURAMAX Premium Drip Oil**

Safety Data Sheet

SDS# 9026, Version 1.0 Effective Date 5/18/2023 According to OSHA Hazard Communication Standard, 29 CFR 1910.1200

**Protection During Firefighting:** Do not enter fire area without proper protective equipment, including respiratory protection. **Hazardous Combustion Products**: Under fire conditions, may produce fumes, smoke, oxides of carbon, hydrocarbons, aldehydes, ketones., and unidentified organic compounds

**Other Information**: Contains Sulfur, may release small amounts of hydrogen sulfide. Hydrogen sulfide is a fatal, and highly flammable gas with a rotten egg odor that quickly causes odor fatigue. Gas can accumulate in the headspace of closed containers, use caution when opening sealed containers. Explosion can occur if hydrogen sulfide is allowed to accumulate in the headspace of closed systems in the presence of an ignition source. Heating the product or containers can cause thermal decomposition of the product and release hydrogen sulfide. Hydrogen sulfide is also an asphyxiant.

#### **Reference to Other Sections**

Refer to section 9 for flammability properties.

#### SECTION 6: ACCIDENTAL RELEASE MEASURES

#### 6.1. Personal Precautions, Protective Equipment and Emergency Procedures

General Measures: Avoid prolonged contact with eyes, skin, and clothing. Avoid breathing (vapor, mist, spray).

#### 6.1.1. For Non-Emergency Personnel

Protective Equipment: Use appropriate personal protection equipment (PPE).

Emergency Procedures: Evacuate unnecessary personnel.

#### 6.1.2. For Emergency Personnel

Protective Equipment: Equip cleanup crew with proper protection.

**Emergency Procedures:** Upon arrival at the scene, a first responder is expected to recognize the presence of dangerous goods, protect oneself and the public, secure the area, and call for the assistance of trained personnel as soon as conditions permit. Stop leak if safe to do so. Eliminate ignition sources. Ventilate area.

#### 6.2. Environmental Precautions

Prevent entry to sewers and public waters. Notify authorities if liquid enters sewers or public waters.

#### 6.3. Methods and Material for Containment and Cleaning Up

**For Containment:** Contain any spills with dikes or absorbents to prevent migration and entry into sewers or streams. **Methods for Cleaning Up:** Clean up spills immediately and dispose of waste safely. Spills should be contained with mechanical barriers. Transfer spilled material to a suitable container for disposal. Contact competent authorities after a spill.

#### 6.4. Reference to Other Sections

See Heading 8. Exposure controls and personal protection. For further information refer to section 13.

#### **SECTION 7: HANDLING AND STORAGE**

#### 7.1. Precautions for Safe Handling

Additional Hazards When Processed: Contains Sulfur, may release small amounts of hydrogen sulfide. Hydrogen sulfide is a fatal, and highly flammable gas with a rotten egg odor that quickly causes odor fatigue. Gas can accumulate in the headspace of closed containers, use caution when opening sealed containers. Explosion can occur if hydrogen sulfide is allowed to accumulate in the headspace of closed systems in the presence of an ignition source. Heating the product or containers can cause thermal decomposition of the product and release hydrogen sulfide. Hydrogen sulfide is also an asphyxiant

**Hygiene Measures:** Handle in accordance with good industrial hygiene and safety procedures. Wash hands and other exposed areas with mild soap and water before eating, drinking or smoking and when leaving work.

#### 7.2. Conditions for Safe Storage, Including Any Incompatibilities

**Technical Measures:** Comply with applicable regulations.

**Storage Conditions:** Store in a dry, cool and well-ventilated place. Keep container closed when not in use. Keep/Store away from direct sunlight, extremely high or low temperatures and incompatible materials.

Incompatible Materials: Strong acids, strong bases, strong oxidizers.

#### 7.3. Specific End Use(s)

Drip Oil.

# **( NORTH AMERICAN LUBRICANTS**

### Safety Data Sheet

PURAMAX Premium Drip Oil SDS# 9026, Version 1.0 Effective Date 5/18/2023

According to OSHA Hazard Communication Standard, 29 CFR 1910.1200

#### SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION

#### 8.1. Control Parameters

For substances listed in section 3 that are not listed here, there are no established exposure limits from the manufacturer, supplier, importer, or the appropriate advisory agency including: ACGIH (TLV), NIOSH (REL), OSHA (PEL), Canadian provincial governments, or the Mexican government.

Mineral Oils		
USA ACGIH	ACGIH OEL TWA	5 mg/m <sup>3</sup> Pure, highly and severely refined: 5 mg/m <sup>3</sup> TWA (inhalable particulate matter). Poorly and mildy refined: Exposure by all routes should be carefully controlled to levels as low as possible.
USA OSHA	OSHA PEL (TWA) [1]	5 mg/m <sup>3</sup>
USA NIOSH	NIOSH REL (TWA)	5 mg/m <sup>3</sup>
Alberta	OEL TWA	5 mg/m <sup>3</sup>
British Columbia	OEL TWA	1 mg/m <sup>3</sup> Severly regined [ 0.2 mg/m <sup>3</sup> for mildly refined oils]
Manitoba	OEL TWA	5 mg/m <sup>3</sup> ACGIH Value
Newfoundland & Labrador	OEL TWA	5 mg/m <sup>3</sup> ACGIH
Nova Scotia	OEL TWA	5 mg/m <sup>3</sup> ACGIH
Nunavut	OEL STEL	10 mg/m <sup>3</sup>
Nunavut	OEL TWA	5 mg/m <sup>3</sup>
Northwest Territories	OEL STEL	10 mg/m <sup>3</sup>
Northwest Territories	OEL TWA	5 mg/m <sup>3</sup>
Ontario	OEL TWA	5 mg/m <sup>3</sup> Pure, highly and severely refined
Québec	VECD (OEL STEL)	10 mg/m <sup>3</sup>
Québec	VEMP (OEL TWA)	5 mg/m <sup>3</sup>
Saskatchewan	OEL STEL	10 mg/m <sup>3</sup>
Saskatchewan	OEL TWA	5 mg/m <sup>3</sup>
Yukon	OEL STEL	10 mg/m <sup>3</sup>
Yukon	OEL TWA	5 mg/m <sup>3</sup>

#### 8.2. Exposure Controls

**Appropriate Engineering Controls:** Ensure adequate ventilation, especially in confined areas. Emergency eye wash fountains and safety showers should be available in the immediate vicinity of any potential exposure. Ensure all national/local regulations are observed.

Personal Protective Equipment: Protective goggles. Gloves. Protective clothing. Respiratory protection.

Materials for Protective Clothing: Chemically resistant materials and fabrics.

Hand Protection: Wear chemically resistant protective gloves.

Eye Protection: Chemical goggles or safety glasses.

Skin and Body Protection: Wear suitable protective clothing.

**Respiratory Protection:** Use a NIOSH-approved respirator or self-contained breathing apparatus whenever exposure may exceed established Occupational Exposure Limits.

**Environmental Exposure Controls:** Do not allow the product to be released into the environment.

Consumer Exposure Controls: Do not eat, drink or smoke during use.

#### SECTION 10: STABILITY AND REACTIVITY

10.1. Reactivity: Hazardous reactions will not occur under normal conditions.

10.2. Chemical Stability: Stable under recommended handling and storage conditions (see section 7).

10.3. Possibility of Hazardous Reactions: Hazardous polymerization will not occur.

Conditions to Avoid: Direct sunlight, extremely high or low temperatures, heat, hot surfaces, sparks, open flames, 10.4. incompatible materials, and other ignition sources.

10.5. Incompatible Materials: Strong acids, strong bases, strong oxidizers.

Hazardous Decomposition Products: Thermal decomposition may produce: Sulfur oxides, Carbon Oxides (CO, CO<sub>2</sub>), Hydrogen sulfide, 10.6. Aldehydes, Ketones, and unidentified organic compounds.

#### SECTION 11: TOXICOLOGICAL INFORMATION

#### **Information on Toxicological Effects - Product** 11.1.

Acute Toxicity: Not classified

LD50 and LC50 Data: Not available

Skin Corrosion/Irritation: Not classified

Eye Damage/Irritation: Not classified

Respiratory or Skin Sensitization: Not classified
